# ANNUAL REPORT,

## 1906.

TO THE MAYOR AND CORPORATION OF WALLSEND.

GENTLEMEN,

I beg to submit my Annual Report for 1906.

Locality.	Area in Acres.	Inhabited Houses 1906.	Population, 1906.	Estimated Popu- lation to the middle of year 1906.
Wallsend Urban	1,202	5,366	25,000	25,000

### BIRTHS.

The number of births registered up to December 31st, 1906, was 959, giving a rate of 38·3 per thousand. Last year it was 39·2 per thousand.

### DEATHS.

For the same period 386 deaths are returned, giving a rate of 15·2 per thousand. Last year it was 12·7 per thousand. Excess of births over deaths—573. Last year's was 623.

#### DEATH RATES OF PREVIOUS YEARS:—

1901.	1902.	1903.	1904.	1905.
17·04	16·6	15·6	15·2	15·2

AGES:—142 were under one year.

59 between 1 and 5 years.

15 „ 5 „ 15 „

19 „ 15 „ 25 „

95 „ 25 „ 65 „

56 were above 65 years.

### INFANTILE MORTALITY.

The rate per thousand births registered this year amounts to 148. Last year it was 127·8.

It will be seen that we have, unfortunately, an increased rate to deal with. Some time ago I brought before the Council the advantages accruing from the employment of lady doctors to look after the welfare of infants. I enclose my full report on the subject, but the Council has not come to any definite decision as yet.

## ADVICE GIVEN AND ACTION TAKEN DURING 1905.

There were two cases of tuberculosis in cattle which were being slaughtered. We were informed by the butchers of the suspicious appearance of the beasts, and on inspection we found evidence in each case of the presence of tubercle. They were immediately removed and destroyed.

This only shows the necessity of having abattoirs, as, had it not been for the honesty of the butchers, the meat could easily have been sold as sound. At South Shields they have a splendid arrangement of slaughter houses, and I would suggest a visit being paid to them by the Council.

## HOUSE BUILDING.

I was glad to observe a great improvement in the building of houses in Station Road with regard to the size of the rooms.

## ASHPITS.

It is very satisfactory to observe the abolition of those abominable ashpits, and I think we cannot but be grateful to our Sanitary Inspector for the able manner in which he has looked after the matter. In Clyde Street East we now have only a few remaining, and I trust that before long these will in turn disappear.

**COW BYRES.**—These have been all inspected and have given entire satisfaction.

**WATER SUPPLY.**—This has been excellent all the year.

**FACTORIES & WORKSHOPS.**—I enclose a list which I have sent to the Home Office. I have inspected them all and have no complaint to make.

I here append the several death rates in the various Wards, with last year's for comparison:—

	1905.		1906.
Northumberland ...	7·7 per 1000	...	17·5 per 1000.
Buddle ...	10·7	„	12·3
Holy Cross ...	12·1	„	11·8
Carville ...	12·9	„	20·1
Hadrian ...	16·9	„	15·8
Wallsend ...	19·2	„	19·2

[illegible]

# SANITARY INSPECTOR'S REPORT.

## SUMMARY OF WORK DONE IN THE INSPECTOR OF NUISANCES DEPARTMENT DURING THE YEAR 1906.

	No of Informal Written Notices by Inspector.	No. of Formal Notices by order of Authority.
Choked Drains ... ..	36	—
Defective drains altered or renewed ... ..	14	—
Defective sink wastes repaired ... ..	9	—
Drains not disconnected from sewer ... ..	3	—
Insufficient Water Closet accommodation ... ..	5	—
Overcrowding ... ..	3	—
Animals improperly kept ... ..	19	—
Offensive accumulations ... ..	11	2
Overflowing Box Closets ... ..	64	9
Defective Box Closets... ..	21	—
Yard surfaces ... ..	13	—
Spouts repaired ... ..	4	—
Floors ventilated ... ..	5	—
Smoke nuisances ... ..	3	—
Dwelling houses in filthy condition ... ..	6	—
Limewashing passages and staircases ... ..	35	—
Limewashing slaughter houses, cowsheds, workshops and common lodging house ... ..	45	—
	<hr/> 296	<hr/> 11

### NEW DRAINS.

No. of New Drains examined ... .. 88

### SLAUGHTER HOUSES, Etc.

No. of Slaughter houses upon Register ... .. 15

These have been regularly visited. Three carcasses infected with Tuberculosis were taken away and destroyed.

The Cow Byers, Dairies and Milk Shops, Pork Shops, Fish and Fruit Shops and the Common Lodging House have been frequently visited and any defects noticed have been promptly remedied by the Owners or Occupiers.

## INFECTIOUS DISEASES.

186 Notifications were received during the year. 71 persons were removed to Hospital. Each case was visited and the condition of the house reported to the Sanitary Committee. All houses are disinfected immediately after the removal of patient to the Hospital or termination of disease, and after fatal cases of consumption. Books belonging to the Wallsend Co-operative Library found in infected houses are destroyed.

## FACTORY AND WORKSHOPS' ACT.

No. of Workshops upon register	...	...	...	48
--------------------------------	-----	-----	-----	----

These have been regularly visited and in two workshops the sanitary accommodation has been increased.

New Water Closets fixed during year	...	...	4
-------------------------------------	-----	-----	---

The Ashpits in Thames Street and Clyde Street (north side) were all taken out during the early part of the year and box closets substituted, and this district is considerably improved thereby.

## REFUSE DISPOSAL.

Refuse taken to sea including 1,280 cart loads of	Tons.
street sweepings ... ..	13,162
Refuse deposited upon agricultural land...	121
	<hr/>
Total	13,283

This shows an increase of 1,000 tons over quantity of refuse removed during 1905, caused by the occupation of new property and the better occupation of the houses generally,

The box closets were cleansed and disinfected once a week, and the ash-pits every fortnight.

Arrangements have been made to prevent any refuse being deposited upon agricultural land.

## FOOD AND DRUGS' ACTS.

Eighteen samples have been taken and analysed by the Public Analyst. One sample of milk was certified not genuine, being deficient of milk fat 13 per cent. Defendant was ordered to pay costs, 15s., including the analyst fee.

WILLIAM JOHNSON,

INSPECTOR OF NUISANCES.
